No. 19 Vol. 1 Thursday, July 27, 1950

ROTE SPOKES

A few of the "Spokes" were absent at the regular weekly meeting on Monday. Vacation time is here for some of the members and we are looking forward to their return to hear about their holiday trips. Warren arrived back last week-end after a two week journey through the States to Vancouver and looked well and fit. He enlightened us on the art of Clam Hunting at the coast — the approach, attack and kill. The speed one must dig after the clam has been "sighted" is apparently the main factor. Warren, at the outset had difficulty locating their "hideaway", but after a little coaching he kept his "Clam Gun" at the alert. He had quite a successful day and proved to be an expert Clam Hunter as he collected his quota for the day. Personally we think there are nicer things to hunt on beaches — and not in shells, either.

Bill Fairbanks and Mose Fromm were Luncheon Guests and following Warren's talk Mose gave an account of a recent visit to Waterton Park, on that trip he decided that he would equip his power boat with a sail, that will act as a brake for future outings.

With War again in the headlines, we feel that this brief excerpt from a speech made by Carlos P. Romulo, President of the United Nations General Assembly, at the Detroit Convention (Rotary) on the 19th of June, 1950, worthy of reproduction at this time.

Unity Born in Baguio

A regional organization that would supplement rather than complement the United Nations is likely to be a hindrance . . . toward peace. Through the Baguio (The Philippines) Conference of 1950, the free nations of South and Southeast Asia have cast their vote for peace; for a peace securely based on respect for the rights and dignity of all men . . . A moral force was unleashed in Baguio which is bound to have some effect on the problems that confront mankind.

Unlike military power, moral force is not measurable . . . in terms of ships, tanks and planes. It is less tangible but potentially more powerful than physical might. Properly generated and expressed, the moral power of 630 million people united for peace can tip the scales against war . . .

The free nations of South and Southeast Asia . . . hope that their desire for peace will . . . touch off an irresistible chain reaction for peace among other peoples in other lands.

Until next week this is your Rote Reporter who believes if you want to save money — you must make it first, and make it last.

Dr. and Mrs. Reid Kirkham of Ogden Utah are visiting friends and relatives here. They will spend some time in Waterton.

This Time - For Sure

Last week we printed an article on Doug Heggie's new business "Bowla-Curl" being started. We apologize — the freight company crossed us up and didn't deliver the goods until this week. Now we can say with assurance that the tables are here — we have played on them and it's fun. Try it!

Heat - and Plenty of It

There was an extra laugh in the show the other night. The twin-bill (both pictures produced by Pine-Thomas Productions) showed the same car being used in both pictures. And you can't fool some of these young people any of the time. Oh, well, maybe that's how the enterprising Williams have added so much to the shoe-string they started out on.

Speaking of pictures. If you can find a baby-sitter and see the show "Pinky". This wonderful adult entertainment and lesson on color discrimination is a must — a show you'll never regret seeing.

RAYMOND RECORDER

The Red Cross Needs YOU

If you were in a position to save someone's life without any pain or discomfort to yourself, what would you do? Would you say "Let someone else do it" . . . would you tell yourself that you did not have the time to spare . . . or would you come forward and snatch that life back from the dark shadows, knowing full well that if you were ever in a similar position you too would want and expect to be helped? That situation faces you now.

You Mrs. John Jones, farmer's wife, or John Brown, store clerk, you can help save the life of some man, woman or child struck down by accident or sickness. Combined with the knowledge of modern medicine and the hands of a skilled surgeon you can provide the one spark of hope so often needed to save a life.

The Canadian Red Cross will conduct a blood donor clinic in Raymond on August 10. The blood thus collected will be distributed to hospitals where patients whose very lives may depend upon transfusions will be able to receive the blood immediately and free of charge.

To supply the needs of the sick and the injured, 700 blood donations are needed every week, that is just Alberta's requirements. The Canadian Red Cross Blood Transfusion Service is now the sole source of supply. The blood must be collected each week from voluntary donors in the cities, towns and hamlets, wherever clinics are conducted. Human lives depend upon the success of each clinic . . . they depend upon the response of citizens in each community where clinics are held. Donors are only called once, or at most twice, a year. This means that you are only asked to give one half hour of your time plus a small amount of your blood once a year to save someone's life (and the life you save may be your own). Is that asking too much?

On Monday, July 31, the Raymond Branch of the Canadian Red Cross Society will initiate its first canvass for blood donors. This canvass of the town and district is to insure a full slate for the Mobile Blood Donor Clinic when it visits here on Thursday, August 10 from 7 pm. until 9 p.m.

Other clinics held here have relied solely on the initiative of the donors but this left a wide gap between the potential and actual attendance.

The local Red Cross Branch are confident that this canvass will raise their present good showing of 100 donors to at least 150. This, naturally, can only be done if the whole community helps.

Recently Wed in Cardston

Mr. and Mrs. Glen H. Walker

A wedding reception of interest took place at the Stake House, July 26th, in honor of Willa Rae Erickson, eldest daughter of Mr. and Mrs. George Erickson and Glen H. Walker, youngest son of Pres. and Mrs. J. H. Walker. The wedding took place at the Alberta Temple in Cardston.

The bride chose a wedding gown of white slipper satin styled with a square neckline and lace inset lily point sleeves and bustled skirt. Her veil was misted from a beaded coronet and her bouquet was of deep red roses and stephanotes. Reita Walker, sister of the bride, as matron of honor wore a blue gown with lace bodice, her cascade nosegay consisted of roses, carnations and spring flowers. Bridesmaids were Marie Dahl, Mona Palmer and Vivian Drayton. Miss Dahl wore a gown of light blue nylon over satin while Miss Palmer's gown was pink net over satin and Miss Drayton wore a light blue taffeta, they all carried cascade bouquets of spring flowers. Little Helen Walker was the flower girl.

Reid Walker, brother of the groom, acted as best man with David Wing, Pete Witbeck, Lee Fairbanks and Rex Erickson as ushers.

The bride's mother wore a blue floor length gown while Mrs. Walker chose a white jersey floor-length gown. They both wore corsages of red roses.

Mrs. E. E. Jensen of Lethbridge was in charge of the guest book and Mrs. Harris Walker played the Wedding March.

Attention Please

It has been brought to our attention that a number of people are using the United Church yard as a wash rack for their cars. Surely in the wide expanse of the Alberta prairie there is enough room to do this job without doing this work on Church ground. All too many of us do not understand that not only is the Church sacred but also the Church yard. This ignorance is being passed on to children who today have no reverence whatsoever for our Church yards. We believe if such things as this are tolerated it won't be many years before the peoples of the earth have no respect for Church or religion. If that time ever comes we will be a debased people — with no respect for even ourselves.

J. S. Anderson, Asst. Supt. of the Calgary Farm Electric Services met with the Board of Directors of the Raymond Rural Electrification Assn. recently to discuss the contract and the hook-ups. Some of the farms east of town are now connected and others will be shortly.

Mesdames Edythe Peterson, Elodia Christensen, and Hilda Reid, all of Stirling presided at the gift table assisted by Misses Colleen and Patricia Mitchell.

Mr. and Mrs. Lee Brewerton, Dr. and Mrs. Orson Bingham and Mr. and Mrs. Lyman Jacobs received the guests while Mrs. Rulon Dahl, Mrs. Orvin Hicken and Mrs. Rayo Woolf acted as hostesses. Mrs. L. L. Palmer poured.

Mrs. Owen Larsen was in charge of serving and Mrs. Jack Stevens the decorations.

E. E. Jensen of Lethbridge was M.C. for the following program:

Trio — Mrs. Gen Hawkins and Co.
Duet — Mr. and Mrs. Robt Holmes.
Poem — Written by Mrs. Myron Hamilton.
Piano Solo — Hazel Fairbanks.
Vocal Solo — Evelyn Melchin.
Quartet — The Temple City Four.
Violin Solo — Nyal Fletcher.

The couple left for Calgary and Banff for their honeymoon and as her going-away outfit the bride changed to a moss-green three-piece ensemble with pink and brown accessories and a corsage of red roses.

Out-of-town guests were from Magrath, Stirling, Cardston, Lethbridge and other southern points.

The groom recently returned from Australia where he labored as an LDS missionary for two and a half years. He will enter medical school in the fall.

The T. Geo. Wood family is having a gathering of the clan in Waterton this week with Mr. and Mrs. T. Geo. Wood, Mr. and Mrs. Lincoln and family, Mr. and Mrs. David and family of Edmonton, Stephen of Calgary and Mrs. Rose Marie Slover and son from the U.S. present.

MM and GG Election

A Stake M Men and Gleaner Girl and Junior M Men and Junior Gleaner Girl outing was held in Courts on Wednesday, July 26. Volley-ball and softball were played the first part of the evening followed by a tug-of-war competition between the various Wards.

Lunch was served after which everyone gathered around the campfire for a sing song and program.

One of the reasons for this outing was to elect a Stake M Men and Gleaner Girls, Junior class, to carry on Stake activities for the year. Jack Dahl and Ladene McBride were the successful candidates.

All the Wards were very well represented and a good time was had by all.

Weddings

Pierce - Follis

On Monday, July 24, a lovely wedding was performed by Bishop Rulon Dahl on the lawn at the home of Mrs. June Allred when Elizabeth Jennie, daughter of Mr. and Mrs. J. Seymour Follis became the bride of William Pierce, only son of Mr. and Mrs. W. Pierce of Portage la Prairie, Manitoba.

The bride chose a party dress of white swiss nylon with a full skirt, fitted bodice, short puff sleeves and elbow lace gloves. She carried a bouquet of red roses on white ribbon. Her veil was held in place by a pearl-studded coronet.

Erma Allred was maid-of-honor and wore a gown of blue net with a pink coronet.

Misses Jean Cooper and LaVon Paxman were bridesmaids, each wearing a party dress of blue nylon and carrying nosegays of spring flowers.

The bride's little niece from Wilson Siding was the flower girl with Robt Follis as her partner.

The best man was Harold Salmon of Wilson Siding with John Schaalje as usher.

Geraldine Court sang a solo during the signing of the register and Mrs. Emma Dahl played the Wedding March.

Immediately following the ceremony a reception was held in the pink and white decorated Legion Hall.

Mrs. Elsie Mitchell received and welcomed the guests. Dorothy Flexhaug was in charge of the Guest Book while Ramona Heggie and Colleen Ralph received and arranged the many love'y gifts.

Mrs. Lucille Paxman, Mrs. Elsie Williams and Mrs. June Allred were in charge of the lunch with the servants being Doris Helgeson, Audrey Zwack, Phyllis Piegrass and Norma Anderson.

Jim Bridge was M.C. for the program which consisted of piano solos by Mrs. Kathryn Keeler and Erma Allred, vocal solos by Herb Bishop and Della Paxman.

Frank Dewsbury of Picture Butte proposed the toast to the bride with groom responding.

A three-tiered wedding cake, topped by a miniature bride and groom, was cut and served by the bride and groom.

The happy couple motored to Portage la Prairie for their honeymoon. While there they will visit with the groom's parents for some time.

Out-of-town guests came from Edmonton, Medicine Hat, Lethbridge and Picture Butte.

The local crop of tomatoes and cucumbers will be very short this year due to the heavy hail storms.

New Office for M.D. 5

The Municipal District of Sugar City is going to have a new office. No it is not being moved west, as some people have hoped, it's being moved north, about fifty feet north. A new building is being erected on the street in front of the old office. The work is being done by three Danish immigrants from Magrath, Jorgenson, Anderson and Swenson.

When the stucco building, which is to be 32 feet deep with a 46 foot front, is completed it will have a main office, council room, vault, secretaries' office and rest rooms. The estimated cost of the building is \$10,000.

During the recent Convention in Missoula, Mont., Lion Ken Long from Cardston was elected as the new District Governor. The next Convention will be held in Banff sometime between the 1st and the 15th of June next year.

During the four-year period ending June 30, 1950, there was an average of 309 new clubs formed yearly with an approximate total of 121,000 new members. During the same period Lionsism expanded into eleven additional new countries, Newfoundland, Canada's newest province is among that number. This brings the total to 27 countries now represented by the International Officers and Directors. All of these countries are also represented and integrated into our great District organization.

One more statistic, perhaps the best one for the fiscal year 1949-50 is that Lions established and accomplished 116,276 separate activities by individual Lions Clubs.

These figures present a record of accomplishment unequalled in the history of service club works. These are accomplishments that have brought ever increasing importance to the significant place in world affairs taken by this Association. They have brought us the organization, the means and the opportunities for greater achievement in the future.

So it can be seen that the Lions achievements to the present day have provided greater opportunities and are the foundation for greater accomplishments tomorrow. They have brought new visions, new hopes and new responsibilities to every Lions Club and to every business man who is a member of a Lions Club. It is not the way of the Lions to allow such opportunities to pass or lie neglected, to grasp and utilize them to the utmost is the responsibility that the Lions recognize. This is not a small responsibility for the problems before the world today are legion. Our material and scientific progress, particularly during the past half-century, may lead us to believe that we have reached the most advanced stage of civilization ever attained by man, yet it is painfully evident that we have not kept pace with the problems of man's relation to man.

There are two important dates to keep in mind — the first of August when the Third Ward entertain the other three Wards at a variety program and dance at the Pavilion and August the tenth when we of the 4th Ward are going to feed and entertain the other Wards — but not for free! The very slight charge of 15 cents has been set to pay for hot dogs and pop — the fun costs you nothing. It will be a bonfire party etc. and I think the place is behind the Stake House but we will have more definite information on that later. Make it a point to be on hand for both of these doins, eh?

Mr. and Mrs. Frank Atterton and family were special guests at a bonfire party and weiner roast held at Victoria Park recently. Softball, a peanut hunt and many other games were enjoyed by everyone.

The Attertons are former residents of Raymond and are now living in Chahala's, Wash. While here they are guests at the Milo Vance home.

Polio Warning

Plenty of rest to guard against Polymyolitis, is the advice given to Canadian mothers, by the National Medical Advisory Committee of the Canadian Foundation for Polymyolitis. The National Medical Advisory Committee asks mothers to be watchful, but not unduly fearful this summer, and be on the lookout for "influenza-like" symptoms.

The Committee was unable to predict whether or not there would be an outbreak of polio this summer. "Polio outbreaks are something that cannot be foreseen. All we can do is take every precaution, use every normal means of retaining our general immunity against disease by remaining healthy and rested at all times. This way we give our bodies every chance to resist disease in every form. Since we are not yet aware of the cause and origin of polio, we must adopt general prophylactic practices."

There is no way of making a 100% correct diagnosis of polio. People should be suspicious, during polio outbreaks, of fever, sore throat, nausea, fever with headache, and abnormal muscles sensations. Excessive exercise should be avoided.

Build into the soul of a farmer and he'll build into the soil of the farm.

Holiday in Waterton

Tuesday morning, July 18 was the time chosen by the Raymond Bussels Young Girls Club to travel to Waterton Lakes. Mr. and Mrs. T. Hironaka and Mrs. S. Kuita accompanied the 14 teenagers as supervisors. Mr. Saruwatari's truck was again the means of transportation.

The first day was spent in town, horseback riding and the show took up most of the afternoon.

Wednesday was a dull rainy day but this did not dampen the spirits of the girls as they spent the afternoon at Red Rock Canyon.

The highlight of the trip came on Thursday when the girls hiked to Bertha Lake. They returned weary and exhausted but swimming and boating soon restored the lost energy.

On the final day of the vacation the group drove up to beautiful Cameron Lake. This was a very beautiful ending to a very happy holiday.

On their way home the girls stopped to see the St. Marys Dam project at Spring Coulee.

Despite conditions of fatigue, dust and rain the four days spent in Waterton were very enjoyable ones.

The girls wish to extend their many thanks to Mr. and Mrs. Hironaka for their generous help and guidance and to Mr. Saruwatari for transportation.

It's not what I possess, but what possesses me.

For Parents Only

By Nancy Cleaver

CALLING WITH JUNIOR

Visiting with a healthy baby is no great problem. Usually he will sleep in his carriage during a short call or be content to amuse himself with a simple toy or look at strange surroundings.

But a visit with a small child is quite a different matter! It is his nature to be active, and unless mother goes along with something to keep him occupied, the visit is apt to be very distracting. The small visitor likely to touch all the breakable ornaments in reach—"Junior" may even knock over a vase or lamp if his mother's careful eyes relax their watchful supervision for a minute.

It is the wise mother who equips herself with several toys for her child and gives them out one at a time. The time during which a child can concentrate on a plaything is brief—and so variety helps.

A soft washable dolly dressed in bright colors is a favorite of both boys and girls—especially if small fingers can remove a little coat or hat and put them on and off the dolly.

A linen picture book with colored pictures of familiar objects is an other good choice. Small plastic planes and trucks fascinate a small boy.

Inexpensive and unbreakable dolly dish sets are a wonderful choice for almost any little girl.

Things that interest youngsters are not limited to toys from the toy shop. A few new clothes pegs are "building logs" and a child can become quite absorbed in the "building game".

A little bag with a collection of cold cream and other small jars with tops (not too small) or with large size colored wooden beads or buttons is also an excellent plaything for a tiny tot.

When you receive an invitation to call with a youngster, perhaps you are fearful that your child's stomach may be upset by eating too much candy or very rich cakes or cookies. Why not be frank with your hostess? Just mention casually that Junior is still on a very simple diet. You may suggest that you would be glad to bring along some Arrowroot biscuits or whatever he has for his afternoon "snack". Taking along his bib and his own unbreakable mug might not be a bad idea too, if there are no little folks in the home to which you have been invited.

In the excitement of drinking milk in a strange place, it is very easy for tiny fingers to drop a cup and no mother wants to see her offspring break chinaware.

Visiting with "Junior" taxes a mother's ingenuity. It is not simple—but a little forethought in planning ahead and providing a youngster with a few playthings makes it much easier.

Calling gives mothers a change from the monotony of routine housework and enlarges the horizon of a child's world. If the hostess is an understanding friend it is worth the extra effort it demands.

The most modern freight yard in North America, the Canadian Pacific Railway's new \$12,000,000 St. Luc "hump retarder" freight terminal at Montreal, which will speed movement of goods through that busy seaport and railway centre, was officially opened on July 6th by Canada's Minister of Transport, the Hon. Lionel Chevrier, K.C. (right of inset) shown as he inspects the retarder controls for the yard with N. R. Crump (left), vice-president, CPR and J. O. Asselin, (centre) president, executive council, City of Montreal. The main view shows the classification yard from the crest of the hump, depicting cars in motion down the hump and showing the car retarders in the foreground. Moving down the hump under force of gravity, the cars are electrically switched and braked, coming to a stop in their pre-determined position in the classification yard. The Canadian Pacific was the first road in North America to adopt the automatic switching principle. The yard also boasts of such modern railroading innovations as an under-track inspection pit to enable all rolling stock passing through the yard to be examined for defects; an automatic weighing scale that weighs the cars in three-and-a-half seconds while they are in motion down the hump; a 37-stall engine house equipped with direct steaming apparatus to eliminate smoke; and 100 foot towers mounted with flood lights and placed at strategic points for night operations. In all, over 75 miles of track capable of holding 4,869 cars were required for the terminal, which actually is a series of three operational yards with other auxiliary yards. It measures over three-and-a-half miles in length and is a square mile in area.

Donald McGill

of the CBC's Montreal studios, who is currently producing the Sunday broadcast series "Startime", on the CBC Trans-Canada network. Mr. McGill is a musician and a linguist, specializing in the production of musical programs for both English and French listeners.

Ralph Reed has reluctantly returned to the B of M after a three week vacation at his cabin at Clear Lake, east of Wainwright. He took his wife with him but she decided to stay there until the weather had a chance to cool off down here—maybe she won't be back until it's time to curl again! How lucky can a person get?

Mother: "Son, I hope your roommate at prep school doesn't swear."
 Son: "Judge for yourself, Mother. The other night he stubbed his toe in the dark and shouted 'Oh, the perversity of inanimate objects!'"

Mr. and Mrs. C. D. Peterson, Mr. and Mrs. N. W. Peterson, Mr. and Mrs. J. L. Larson and Mr. and Mrs. Orson Anderson attended the Peterson reunion held at Red Rock Canyon last Wednesday.

 "May I have this check cashed, please?" asked the young woman of the paying teller.

"Of course, madam," the teller replied. "Just endorse it please."
 "Must I endorse it?" she asked, apparently puzzled. "I'm Mrs. Smith, you know. My husband is out of the city and he mailed the check to me."

"Yes, it must be endorsed. Sign it on the back please, and Mr. Smith will know we paid it to you."

Mrs. Smith took her pen from her purse and passed the check back to the teller endorsed, "Your devoted wife, Ethel."

Direct and indirect taxation will cost Canadians about three billion dollars in 1950.

Mr. and Mrs. Scott Salmon and Mr. and Mrs. Alma Hancock spent last week-end in Kallispel, Mont. They went over the Logan Pass and from their tales of the magnificent beauty of it we are finding it hard to contain ourselves until the 15th of August when we start our holidays (one week, we hope) and take our first trip in that scenic wonderland.

Last Sunday six (among many) men were kind to their wives and took them to "Wonderful Waterton" for the day. They report a wonderful time and in some cases a "good" sunburn. Those in the party were the Jerry Melchins, Dorla Stones, Bill Nalders, Ross Mendenhalls, Cal Hills and Barker Selmans.

Mrs. Olive Watson entertained a group of friends on Thursday evening in honor of Mrs. Hubert Whittaker.

Artery of Civilization PRINTING

This is a reprint article taken from the CIL Oval written by L. C. Hazelton

During the last quarter century the Canadian printing industry has expanded remarkably. Holding sixteenth position in gross value of production among Canada's leading industries, it ranks fifth in number of employees, and seventh in salary and wages paid. Modern Printing Processes

Three basically different printing processes are in use today.

(1) Oldest commercially (dating from Gutenberg) and most widely used is letterpress printing, the transfer of ink from a raised type or other surface to paper. This is the kind of printing we do at the Recorder.

(2) Offset is a planographic, or flat surface, printing process. Moisture on the plate prevents the greasy printing ink from adhering to any part of the surface except the image, which accepts the ink. A "kiss" impression then transfers the image to a rubber blanket, from which it is deposited on to paper. Offset printing springs from lithography, a process discovered in 1793 by a Bavarian actor, Aloys Senefelder (who discovered that laundry list, written in greasy crayon, could be used as a rudimentary printing plate).

(3) The third main process, rotogravure, developed in 1895 from the 450-year-old intaglio process in which an artist scratches lines on a copper plate, etches deeper impressions in the metal with acid, applies ink to the plate, cleans off the unetched surface leaving the ink in the depressions, then transfers the ink to paper by pressure.

Your comments on this series would be appreciated.

Canadians ate three times as much ice cream in 1948 as they did in 1939.

On a Canadian's 36-cent package of cigarettes, 15 cents go to the retailer, wholesaler, manufacturer and others who bring the product to market; federal taxes account for the remaining 21 cents.

THE NEW RAYMOND RECORDER

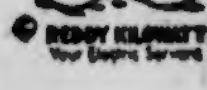

Singer-Actor

George Murray, of Toronto is a CBC artist with a varied bag of tricks that has put him in demand for a wide assortment of network programs since he moved east from Winnipeg a little over ten years ago. He sings, acts and on occasion, obliges with sound effects — his original forte. He has also sung in musical shows like "Just a Memory" and turns up frequently in dramas on the Stages series and CBC Wednesday Night.

I can't do a great deal for my nation unless I give a square deal to my neighbors.

IT is individual hands like these which have built this nation. Working in a system of Free Enterprise they have guided Canada to the high standard of living our citizens enjoy today.

With faith in the future men and women work more eagerly. They know their individual initiative and enterprise will produce its worthwhile reward. The thousands of well established farms throughout Alberta justify this faith. They also justify the system of Free En-

terprise which makes them possible. These farms today belong to free men and women. But they will remain so only as long as men and women treasure the right to dream, to hope and to plan; and only as long as you and your neighbors value the privilege that enables your individual enterprise to make your dreams, hopes and plans come true.

Calgary Power Ltd., with its many shareholders, has pioneered with you in building Alberta. Sharing your faith in Alberta's future, Calgary Power plans and builds for the years ahead.

THE NEW RAYMOND RECORDER

A number of Raymond people attended the Fireside which brought the annual Western Canadian Missionary Conference to a close last Thursday night in Cardston. President Gordon Brewerton was the main speaker of the evening and his talk was followed by skits and songs presented by the various missionaries, all of which were enjoyed immensely by the audience.

Closing remarks were made by Pres. Glen Fisher of the Western Canadian Mission.

The 165 missionaries departed for their various fields of labor on Friday morning.

Mr. and Mrs. Ellis Heninger, Mr. and Mrs. Bill Nalder and family and Mrs. Virginia Rolston and family spent last week-end in Yellowstone Park, Alberta where we have lots of wind The children, and the grown-ups too, and dust. A medium sized downpour got a great thrill out of the geysers would be welcome about now don't and the friendly bears.

Sandy: That's a grand watch ye have there Andra', do it tell ye the time? Andra': No —I have tae look at it.

Heat is one of the things some folks have had plenty of for this year. For their holidays this year Mr. and Mrs. Lee Bullock were going to Arizona to visit relatives and see the scenery. Last week, accompanied by Mrs. B's father, George Loxton of Magrath, they headed south toward the equator. By the time they got to Salt Lake they thought that the equator was coming to meet them because the thermometer registered 110 degrees. That was too another year to visit relatives and see much, they decided they could wait the scenery so they hid themselves back to good old Sunny Southern last week-end in Yellowstone Park. Alberta where we have lots of wind The children, and the grown-ups too, and dust. A medium sized downpour got a great thrill out of the geysers would be welcome about now don't and the friendly bears.

are now considering painting and decorating propositions in this district. For further details phone 24 or call at The Recorder Office

**ACRE-EATING CAPACITY...
BUSHEL-SAVING ECONOMY**

**JOHN DEERE
No. 55 Combine**

Acres melt away in a hurry... granaries fill up faster when a time- and grain-saving John Deere No. 55 Self-Propelled Combine goes to work in your fields.

Working at any speed from a mere crawl on up, the No. 55 saves more grain in any field or crop because of extra capacity from the 12-foot platform on through the threshing, separating, and cleaning units. See us for details.
